HAIR OF GREAT LENGTH.

Nearly One Foot Longer than Its Owner is Tall.

Mrs. D. J. Davis, of San Francisco, Cal., has the longest hair in the world. She is 5 feet 9 inches tall, and her hair is 6 feet 8 inches long. Her sisters also have very long hair.

"I never brush my hair." said Mrs. Davis, as she removed those long, coral pins that held great colls in place about her head so that her hair might be measured, "for the reason that I do not believe it is good for the hair. In fact

LONGEST HAIR IN THE WORLD.

I have demonstrated my belief to my own satisfaction by experimenting. When a girl I gave very little attention to my hair, and in consequence it did not grow at all. Sometimes I felt very much chagrined to see how much longer and prettier was the hair of all three of my sisters, but I was somewhat careless. When I became a woman I suddenly developed a desire to have long hair like theirs, and began to take the utmost care of what little I had. Every morning, and sometimes twice a day, I brushed it thoroughly, but it did not grow any better. Then I noticed that the brush, after the daily application to the hair, even when the latter had no tendency to fall out, would be filled with very fine hairs, and soon I realized that while the brushing had no effect upon the long hair it effectually killed the new growth, and I decided to stop.

Since then I have used nothing but a very coarse comb. Every morning I go over the hair thoroughly and carefully, removing every snarl until it is as free and flowing as water. Then I braid it and coll it into varied colffures about my head. I never used cosmetics on my hair."

FLOOD OF INVENTIONS.

Patents for Wheelmen's Sundries Are Constantly Applied for.

The patent office at Washington has been flooded during the last year with Inventions relative to the bicycle. It is estimated that the ambitions of

played in the invention of bleycle sundries submitted to the patent office every month. It is estimated that 80 per cent, of the inventions sent to the patent office are of no use to the rider. Something over 100 clips" have

500 persons are dis-

been invented. A dealer said the other day that very few of the clips were of any consequence, but that all had ready sales.

The dealer was asked if all the bicycle sundries found ready sales. He said: "No, not by any means. There are many things that are meant to be blessings to riders that are comparatively unheard of. They are just the things that the makers claim are necessary to make a bicycle complete. Why, there are things in

the store to-day that we never expect to get rid of. To tell the truth, there are many of them that I would? not sell if I could. I could not look the buyer in the face an hour later if I

did. If a bleycle rider were to supply himself with everything that is claimed to be necessary to make his outfit complete, he would find it extremely difficult to put them all in an averagesized wheelbarrow. There are blcycle sundries and there are bicycle sun-

A Patriotic House, Captain Jud Haskins, who lives west of Mount Vernon cemetery in Atchison. Kas., is perhaps the most patriotic man in that section. He lives in a two-story frame house and has just completed the

work of painting it red, white and blue. The stripes run horizontally around the house. The first stripe, which is blue, comes up to the lower windows: the second stripe, white, reaches to the second story windows, and the batance and the roof is red. The house looms up in great shape from the road, and it is said that it looks rather artistic. Captain Haskins is an old soldier.

Time to Drop It. Those newspapers which find fault with the outcome of the Waller case don't know when to let a good thing slone.-Washington Post.
